

ZENTALITY A10 PLUS

ZENTALITY A10 PLUS

Brief Introduction

Beta 2.5

Brief introduction to the ZENTALITY A10 PLUS. The LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 10000:1. The manufacturer specifies an LED service life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. A built-in horizontal and vertical keystone correction provides freedom when setting up the projector. The projector can illuminate a 190 cm image width well. However, if there is ambient light in the room, the image width should not exceed 127 cm. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, the projector can play 1080P without any problems.
